

HP3000E

Your Hand is Your Card

There are no cards to create, administer, carry – or lose. TheHandPunch® 3000-E verifies employees' identities in less than one second, based on the unique size and shape of their hands. For small to mid-sized companies, the HandPunch 3000-E provides a quick return on investment by eliminating the cost associated with administering and managing cards. For companies that have small to mid-sized, multiple locations, minimal supervision leaves opportunity for buddy punching and time fraud. With the HandPunch 3000-E one employee can't punch for the other. Time fraud is eliminated thereby reducing payroll costs and increasing the company's bottom line.

Features & benefits

- Saves money over card-based systems
